Marc, I have forwarded your information to Teri McMillan who is the contractor for EPA on this project. Since you are a remediation company, any site activity related to that expertise will not occur for another 2 to 3 years. I can add your contact information to the mailing list so that you can stay updated on site progress.

Thank you for your interest.

Bill, Please add Marc to the mailing list.

Katrina & Todd,

I would like to introduce myself before I call and interrupt your busy schedules and hope that this email reaches you all. AES is a reasonably new remediation company that is a true Oklahoma based company, even though we only been I business since 2012 We have been very success full on the low lying fruit projects that we have been able to chase down and have completed the:

2012

**Kerr-McGee Remedial Action
Cleveland, OK**

Contract Amount:

\$3,700,000.00

Owner:

Multi-State Trust

Ty Griffith

24126 SE 16th Place.

Sammamish, WA 98075

(425) 281-9185

Engineer:

APEX Companies

Ned Young

4608 South Garnett Road

Suite 100

Tulsa, OK 74146

(918) 610-3543

9750853

Description: Remediation of 86,000 tons of lead and hydrocarbon
impacted soils. Blending of 30,000 cubic yards of hazardous
lead impacted soil, rendering the waste non-hazardous for disposition to local Subtitle D landfill.

AES has been proactive in hiring some strong individuals that allow us to perform at the highest level with this and being a local contractor we would love the opportunity to be part of the process. I would love to sit down with the either of you or both and discuss opportunities here or on something else that might allow us the opportunity to show you how are performance is. Please feel free to respond by email and let me know if we can pursue a conversation.

Attached is a list of our project list for review.

Sincerely,

Marc Donnot
